

NRN Thematic Cluster on CLLD

2nd Cluster Meeting – Draft Agenda

27 November 2013, Dijon, France

Purpose of the meeting

The main purpose of the cluster meeting is to develop further a detailed action plan for the working groups around the main themes of interest of cluster members. An indicative list of possible topics to be covered has been put together based on initial interests expressed by members. The meeting will aim to finalise the set-up of these groups, identify cluster members who are taking the lead on the work of individual working groups, and start to develop the action plan for the groups (including planned activities, methods, responsibilities about interested members and planned outputs). Since the cluster involves a wide range of stakeholders, there is a possibility to exchange on various aspects of future CLLD implementation from a range of stakeholder perspectives.
