WORLD PULSES DAY

"PULSES FOR A SUSTAINABLE FUTURE"

Join us for two hours to celebrate the power of pulses, on 10th February, starting 10:00 am CET

Composed of dry peas, lentils, chickpeas and beans....

- Pulses are one of the most versatile foods on the planet
- Pulses enable consumers to access nutritious foods

- Pulses increase the diversity of diets
- Pulses are suitable to multiple cropping systems
- Pulses improve soil biodiversity and fertility

ECPGR Grain Legumes Working Group

Vegetable Research and Development Station Bacău

FAO Pulses Day

For More Info :

creola.brezeanu@legumebac.ro

- Opening and welcome message – **Creola Brezeanu**, *organizer*
- The European Cooperative Programme for Plant Genetic Resources – **Sandra Goritschnig,** *ECPGR*
- 10 February, World Pulses Day, **Food and Agriculture Organization** message
- Grain legumes ECPGR Working Group – activities and achievements **Creola Brezeanu**, *Vegetable Research and Development Station, Bacau Romania*
- Pulses in Spain: production and demand – **Lucía De la Rosa Fernandez**, *Centro Nacional de Recursos Fitogenéticos (by CRF), Instituto Nacional de Investigación y Tecnologia Agraria y Alimentaria (INIA)*
- Legumes as an ingredient of healthy nutrition – **Margarita Vishnyakova**, *N.I. Vavilov Institute of Plant Industry (VIR)*
- Traditional food uses of *Vicia articulata* (Hornem.) in Italy – **Angela R. Piergiovanni**, Institute of Biosciences and Bioresources – *National Research Council (CNR)*
- Status quo of pulse in Bulgaria – **Sofia Petrova**, *Institute of Plant Genetic Resources "K.Malkov"*
- Researches about pulses with aims to increase plant stress plasticity, quality and yield – **Elena Barcanu**, *Vegetable Research and Development Station, Buzau Romania*
- Main pulses cultivated in Estonia, new crops, the oldest varieties preserved in the genebank and traditional dishes – **Külli Annamaa** and Lea Narits, *Centre of Estonian Rural Research and Knowledge (METK)*
- Collection of pulses in the Republic of Srpska, B&H – Marina Antic, Vida Todorovic, **Sonja Umicevic**, *Institute of genetic resources, University of Banja Luka*
- Cowpea for diversity in our farms and food – **Efstathia Lazaridi** and Penelope Bebeli, *Agricultural University of Athens*
- Characteristics and potential of composite common bean genetic resources – **Eva Plestenjak**, Vladimir Meglič and Barbara Pipan, *Agricultural Institute of Slovenia*
- The grain legume gene pool of Ukraine, a valuable source for solving environmental and food security – **Liubov Kobyzeva,** *Institute of Plant Production n.a. V.Y. Yurjev of the National Agricultural Academy of Science of Ukraine (NAASU)*
- Citizen Science Experiment – INCREASE project – **Cezar Ciobanitei**, *Banca de Resurse Genetice Vegetale Suceava, Romania*
